SAN FRANCISCO, March 6th .- The police made a raid on a Chinese gambling house on Dupont street last evening, twenty-two were captured and a considerable sum of money. Two brothers, John and Frederick S.

Emeler, 20 and 22 years old, started across the bay in a boat to Oakland, but when opposite Goat Island the boat was upset and Frederick was drowned, the other was rescued by a boat from the steamer Oakland, in an exhausted condition.

Mrs. J. Dompblin, a widow residing on Bush street, was found dead in bed yesterday morning, it is supposed from heart disease. She was upon the street on Saturday and appeared in usual health.

Edward C. Taylor was found dead last night at half past 11 o'clock in a hall way of Alta lodging house on Commercial street.

Delegates from all tho lodges of Odd Fellows met in session on Saturday eve and decided to celebrate the fifty-seventh anniversary of the establish-ment of the order in America by a pic-

nic on April 26th. St. Patricks Convention met yesterday afternoon in the Irish American Hall, on Howard street. It was announced that Union Hall had been scleeted as the place in which to hold the exercises. Archbishop Alemdny and General Schofield declined to par-ticipate in the celebration on account

of press of business. The total yield of the Consolidated Virginia mine for the month of February is \$2,800,000. The mine is paying off to-day and the employees receive four-fifths in gold and one-fifth in silver.

Escape of Mitchell the Wife Murderer. SAN BERNARDINO, 6th .- Our town was thrown into a terrible state of excitement this morning, upon the an-nouncement that the Mitchell brothers had again made their escape from jail. The particulars as near as I can learn are as follows: Last evening at 7 o'clock the guard, Charles Clusker, was locked in the basement of the jail as usual and when he was in the act of lighting his candle. One of the Mitchell brothers struck him a heavy blow on the The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs. Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind.—Boston Globe.

[From the Gazette.] We understand that the Barham ranch, at the mouth of the Santiago cañon, has been purchased by Ex-Mayor Toberman, of Los Angeles, who intends to immediately put the trespass law in force against all trespassers on the property.

Mr. Cheeseman came into town yesterday, and reported that some one had poisoned his lot of fine hogs and that all of them were either very sick or dead. It appears to have been done with phosphorus. Neither the motive nor the perpetrator of the outrage is known, but it will probably be ferretted out soon. Mr. Edelman, the Jewish Rabbi of

Los Angeles, was expected in town last night to conduct the right of circumcision in the family of one of our Israelitish friends, who has been afflicted with a son stroke. Owing to the bad condition of the roads, he did not arrive, and it was postponed until Monday, March 10th.

It will very shortly be time for the wool clip of the country to be coming into market. It annually amounts to over 3,000,000 pounds. Mr. Farish, of the wool house of Moody & Farish, San Francisco, gives it as his opinion that the first wool will bring the best price, and that it will not at any time this season be high.

COUNTY Treasurer THOMAS E. Row An yesterday turned over to his successor in office the county funds, amounting to one hundred and seven thousand seven hundred and twentyseven dollars and sixty-six cents.

ALL the offices in the county, save that of Treasurer, are filled by Democrats. The incumbents were elected on a platform promising retrenchment and reform, and we hope and believe that none will forget to redeem promises made before election. Our county officers, like those who have just retired, are all worthy citizens and estimable gentlemen, and we have no doubt they will prove themselves efficient officers, and that hey will, when their stewardship is ended, each and every one, receive from the people the earnest plaudit, "Well done thou good and faithful servant; you have served us well and we will elect you again."

THE consideration of ARCHER'S freights and fares bill which has already passed the House comes up in the Senate to-day. It is impossible to indicate what disposition will be made of the bill by the Senate. It is presumable the vote will be close should a final ballot be taken to-day. The result depends to a great extent on the report of the, Senate Committee on that Committee on its receipt from the House. An amendment will of course send it back to the House or piace it in the hands of a joint committee. The disposition of the bill is a matter of great importance to the people of Southern California. Its passage as it now reads will be a bit of disastrous legislation to this part of the State as it will put a quietus to railroad building for some time to come.

Commissioner does not appear to be a gratitude and pleasure. favorite with the majority in the Legislature. Its unpopularity is perhaps due to the influence of banks and bankers on members of the two Houses and the fact that this influence is manifested ought, and no doubt will be accepted by the people as evidence that there are a good many banks in Califorpia whose credit would not be strengthened by a public statement of their actual condition. A sound bank -one conducted on a fair basis and governed by honest principles, has no cause to fear a Bank Commissioner, and will not spend money in lobbying to descat a bill providing for the appointment of such an officer. In opposing the Bank Commissioner's bill nothing to their popularity with the people, nor are they placing themselves entirely without the pale of suspicion that their opposition is due to the influence originating only from a con- bill in Congress means its death, and viction of right. The theory that banks are private property, of the real value and standing of which the public have no right to information other than that the managers see fit to give, is false and dangerous. The broker who buys and sells with his own money may use this argument with effect. But the bank which receives defect. On what principle of law do a half dozen individuals become the keepers of the people's money without giving satisfactory security that the funds will be returned when called for? How are depositors to know that the security is satisfactory, unless the guarantee comes from a disinterested party who has the legal right to know where—

is not a private concern because it does not be entered into to make our town and county. Yesterday we had a short conversation with Captain Johnson of the Orizaba. We said, "Why, Captain, you are leaving port a day in advance. Why is that." "Well," said he, "there is but little freight here; the Arizona stage arrived last night, and I shall have no passengers. The freight above has been accumulating for some time and I must run up and take it away." That is the statement that hurts, and we must manage to change is not a private concern because it who has the legal right to know whereof he speaks? A private loan cannot the fact or we may possibly lose more be obtained on the bare assertion of than the Tom Scott bill. The mere statement that he owns a block of buildings and a few thousand acres of land will not suffice. Before the coin is handed over the records must be examined and deeds and mortgages overhauled. The Bank Commissioner, if we had one, would be to the depositor what the guided in seeking a deposit for the money. With such a Commissioner soon as summoned. the books of a bank would not remain unposted for two or three years. People would not be robbed of their little all up to the moment when with immense liabilities, worthless assets, scores of protested drafts, disordered books and empty vaults, a bank closed

### An Excellent Idea-Plant Trees.

The law, we believe, authorizes the County Superintendent of Schools to set out trees about school buildings and pay the expense thereof out of the school fund. Very little attention has beed paid to this kind of improvement and adornment of school property in our county up to this time, but our new Superintendent, Mr. SAXON, proposes to give the matter more attention than it has heretofore received. In order, however, to attain the desired end without using the school money, he suggests the plan of devoting one day in the Spring of each year to the setting out of trees and shrubbery about the school houses. On the day fixed upon, the teacher and such of his pupils as are of sufficient age to engage in the work, will set out and prune trees and otherwise adorn the school grounds. We think Mr. SAXon's idea an excellent one, and we should be pleased to see it acted upon this Spring. Suppose the 17th of March, which is a holiday with many of our citizens, is set apart for tree planting on the school grounds. There will be no school on that day, and the teacher and the boys will plant trees. The young lady pupils will grace the occasion with their presence, and honor the work with their superintendency. We doubt not our orchardists and nurserymen will contribute the young trees, and an application to the Los Angeles Timber Growing Association, of which Judge WIDNEY is President, will, we think, secure all the young encalyptus trees required. The watering and other care of the Corporations as the bill was sent to trees after they are planted will of course devolve upon the teacher and the pupils, but having commenced triet Attorney Jones assisted by Alex the good work they will take a pride seeing it prosper. If Superintendent SAXON'S idea is acted upon every school house in the county will in a few years be embowered in trees, and the school grounds adorned with rose bushes and other ornamental shrub- an opportunity to examine the case. bery. ### What Railroads Do.

The stock market has been variable all day. It opened early strong. Ophir touched \$80 and Mexican \$50, but in the morning board these and other stocks sold for less than informal prices. After the forenoon recess the prices of everything were forced down still lower, only to recover before the afternoon session. After the second board the Bears job in again, and when operations ceased for the day the market was considerably broken. This is the first time for a week that the Bears were masters at the close of the day; but the immense amount of stock upon the market within ten days has given them a leverage which they were prompt to avail themselves of.

Logislative Proceedings.

SACRAMENTO, March 6th .- The Senate Committee on Corporations, consisting of Farley, Chairman, Graves, Gibbons, Evans, Shirley, Satterwhite and McCarthy, met on Sunday morning to take testimony and hear statements for and against the passage of the Archer fares and freights bill. The committee room was filled by Senators, Assemblymen and persons connected with the railroad Companies of the State, persons inimical to railroad interests and lookers-on. Gov. Stanford and several representatives of the Central Pacific railroad were also

Alfred A. Cohen, of Alameda, appeared on behalf of the bill and made a lengthy statement in support of his position. He said that the Archer bill would afford to any railroad company We have before said to our readers | designing to do business in a legitimate manner a fair and proper return on the capital invested. He said: I would take any road that the Central done more than this. It has received subsidies which have made its owners enormously wealthy, and this wealth they have not only used to buy up confers. The company has brought the people into servitude from which

reasons why the Archer bill should not pass. First, it is founded upon misstatement and misapprehension of facts; second, the provisions of the bill and its classifications of freight by the bill are ruinously low. No argument was made on these three heads, and statements and statistics in great number were adduced in sup-

statement of Mr. Stubbs, and stated further that under the bill the carning of the Visilla division would not permit the company to realize enough to sustain its operation at this point. The committee adjourned.

At this morning's session Mr. Stubbs made a comparison hely een the Free-man bill of last session and the Archor bill, showing that the latter was even worse than the former, because it lowered the rates. to an extreme degree Col. W. B. Hyde, of President Stand-

the Wisconsin law. Gov. Standford then took the stand and stated in reply to a question from a member of the committee that under the rates of the Archer bill railroad transportation to and from Los Angeles county would have to be entirely suspended. He stated that Los Angeles was one of the great railroad centres of the State, and its loss under this bill would be very great. He spoke of the prosperity of Los Angeles county and attributed much of the same to the benificial influence of the railroad. He asked for justice at the hands of the committee, and stated: substantially that true state of affairs was that it was a contest of the people against the Archer bill, not the people

against the railroads. Upon the conclusion of the Governor's argument Mr. A. A. Cohen took the floor in rebuttal of statements made, and after disposing certain statements of Mr. Stubbs, said that it was high time that there was legislation upon the question of fares and freights, and as the railroad company would not assist the Legislature in preparing such a bill the Legislature would do the best they could, and if amendments were necessary to the entire correctness of the bill, why did not the railroad company make such amendments. A trial will convince the most skeptical of its superiority over all others, being adjustable in all its parts, every movement being positive, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines.
